

ISSUES REGISTER Group 8

Project : CLEVO - a budding sharemarket investor application

Project No: 1

As At: 20/11/2016

No	Description	Impact	Date Raised	Phase Raised	Allocated to	Resolution Strategies / Actions	Date Closed
0	<i>Sample – Delete this row after Register has been created</i>	<i>C –ritical H – igh M – edium L - ow</i>		<i>Planning Analysis Development Testing Implementati on Post Imp.</i>	<i>Name/s of person/s resolving the issue</i>	<i>Describe the strategies or actions that will be required to close / resolve the issue. UPDATE: as actions progress and are closed..</i>	
1	JS not working on the Online Version	C	01-11-16		Vio and Carlo	Compare the local version with the online version. Investigate why the local copy of the project works correctly but not the online version if both versions are the same. Further Google Chrome development tool/inspection pointed us in a number of directions but in the end updating the Composer locally solved the online issue	06-11-2016
2	Unable to see Carlo's contribution via GitHub	H	20-10-16		Group	Checked settings, compared accounts, research conducted on the web, issue stands	Ongoing
3	Unable to add Homy to the BitBucket list	M	27-09-16		Group	Discovered BitBucket is limited to 5 members only for a private project on a free license so we decided to migrate the work to GitHub	28-11-2016
4	Carlo unable to install laravel/composer successfully	C	10-9-16		Carlo	After a lot of research the issue ended up being related to file permissions on Carlo's system.	15-9-16
5	Ability to buy or sell 0 shares and still be charged a fee	M	18-11-16	Testing	Lucas	Disable the buy and sell buttons unless the number of shares is greater than 0	20-11-16

6	Unable to Host Laravel project on a Synology NAS environment	M	10-09-16	Deployment	Vio	After updating DSM to the latest version the issue persisted. More research conducted and the outcome is that a Synology NAS environment is not ready to host a Laravel framework based project. We decided to proceed with the Amazon's AWS which worked	10-09-16
7	Online version not functioning correctly	M	15-11-16	Deployment	Vio	Replaced backslashes with forward slashes when using require(app_path) function as initially written on a MAC environment and caused the transactions page to fail loading due to this error when loading on a Windows environment	15-11-16
