
CLEVO - a budding sharemarket investor application

Project Report - Group 8

Table Of Contents

1. Meeting Agenda

The Meeting Agenda document was used to outline the agenda to be discussed during our weekly meeting with the supervisor. The document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20share d%20documents/1.%20MeetingAgendaG8.pdf>

2. Meeting Minutes

The Meeting Minutes document was used for recording the minutes during our weekly meeting with the supervisor and also throughout the week for the life of the project. The document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20share d%20documents/2.%20MeetingMinutesG8.pdf>

3. Project Charter

Our Project Charter document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20share d%20documents/3.%20ProjectCharterFinalG8.pdf>

4. Technical Solution Design

Our Technical Solution Design document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20share d%20documents/4.%20TechnicalSolutionDesignG8.pdf>

5. Issues Register

The Issues Register document was used to record any issues encountered throughout the project and the resolution or state of those issues. The document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20share d%20documents/5.%20IssuesRegisterG8.pdf>

6. Risk Register

The Risk Register document was used to identify and record project risks and mitigation strategies to assist if the risks become reality. The document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20shared%20documents/6.%20RiskRegisterG8.pdf>

7. Project Schedule

The Project Schedule document was used to plan the project sprints and tasks within the sprints to help visualise the life of the project ahead of time and assist with the deadline success. The document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20shared%20documents/7.%20Project%20ScheduleG8.pdf>

8. Proposed Assessment Formula

The document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20shared%20documents/8.%20ProposedAssessmentFormulaG8.pdf>

9. Tools Research

The Tools Research document assisted the group with familiarising themselves with the tools we were using towards the creation of this project. This research was done by individual group members. The document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20shared%20documents/9.%20ToolsResearchG8.pdf>

10. Learning Outcomes

Learning Outcome document also serves as a project report document highlighting our communication, critical analysis and problem solving. The document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20shared%20documents/10.%20LearningOutcomesG8.pdf>

11. Testing Register

The Testing Register document was used to record the code testing performed to identify bugs or any issues in order to be resolved prior to the new version release. The document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20shared%20documents/11.%20TestingRegisterG8.pdf>

12. Tools Setup Guide

This document was used at the beginning of the project and contains instructions on how to setup the internal software tools used for creating the project. The document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20share%20documents/12.%20ToolsSetupGuideG8.pdf>

13. Usage Scenarios

The Usage Scenarios document was used to create individual user scenarios on how to complete particular tasks from the start to the end. The document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20share%20documents/13.%20UsageScenariosG8.pdf>

14. User Manual-Project Closure Report

The User Manual was used to outline the project's features and offer user step by step instructions on how to access and complete all actions the project offers. The document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20share%20documents/14.%20UserManual-ProjectClosureReportG8.pdf>

15. Peer Review Document

The document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20share%20documents/15.%20PeerReviewDocumentG8.pdf>

16. Trello and Slack

Trello and Slack played a major role in our project success when it comes to managing the project and managing group communication throughout the duration of the project. The document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20share%20documents/16.%20TrelloAndSlackG8.pdf>

17. Project Report

The Project Report document is this document which outlines and summarises all documents created by Group 8 throughout the life of this project.

18. Test Plan

This document is intended to give the strategy for conducting tests on the web application Budding Share Market Investor. The website is composed of many features. This test plan is designed to ensure all features work as expected. The document can be found here:

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20share%20documents/18.%20TestPlanG8.pdf>

19. Contribution Form

<https://github.com/evanleclercq-rmit/clevo-rmit/blob/master/CLEVO%20share%20documents/19.%20ContributionFormG8.pdf>
